

# **SOLUTIONS FOR THE HEAVY-DUTY TRAILER INDUSTRY**

## **Durable Protection**

### *With Sheboygan Paint Company High-Quality Coatings*

Heavy-duty trailers must stand up to rugged treatment, from freezing winter temperatures, ice, snow and road salt to intense heat, humidity and sunlight. Trailer manufacturers need a coating they can rely on to consistently protect their product and maintain its appearance.

The Sheboygan Paint Company portfolio includes both water-borne and solvent-borne coating systems for protection and high-gloss topcoats. We can even custom-match color for the look your customers want. Our industry-leading zinc-rich primer and urethane topcoats surpass industry standards, competitor performance and our customers' specifications. In fact, when used with our solvent-based epoxy primer, **our Uraguard topcoat system resists corrosion for more than 5000 hours!**

And, as a leading mid-sized coating company, we are nimble enough to make our customers a priority and powerful enough to provide the innovation and expertise needed to solve problems.

## **Attributes**

- Fast Dry/Cure Time
- Low or No HAPs
- Economical
- Reproducible
- Proven Durability
- Consistent Performance
- Great Weatherability
- Easy to Use & Clean Up
- Excellent Coverage

***"Delivery time is one of the most important things for the trailer industry. Sheboygan Paint Company does a better job on their deliveries than anyone else. We are never down because of them. And the quality of their paint is great!"***
